

Certified Organic Tahitian Noni Juice

Our commitment is to make this extraordinary Certified Organic Tahitian Noni Fruit Juice affordable to everyone who would benefit from it.

Merlin Natural Health has been very fortunate in locating a supplier who shares our philosophy and belief that everyone should have the opportunity to enjoy the benefits of this remarkable juice, because we are able to purchase direct at a very competitive price and we can pass these savings on to you, our valued customers.

Merlin Natural Health Noni Juice is a very high quality product and contains 99.6% certified organic noni juice per 1 litre bottle.

On concluding extensive market research we are also confident that Merlin Natural Health Noni Juice is extremely competitively priced in the market place. Noni juice processing is an expensive procedure as it takes in excess of 3kg. of Noni fruit to produce 1 litre of juice.

Faced with and overcoming the challenges of processing, shipping, bottling and laboratory control procedures Merlin Natural Health is excited to be able to share the Noni experience with you and your family.

Noni Juice is reddish brown in colour and comes from the fruit of the Morinda Citrifolia tree. It has been used for thousands of years by Polynesian Healers and is still being used as a primary alternative medicinal source to help with conditions such as:

Pain, Inflammation, Burns, Skin conditions, Intestinal worms, Nausea, Food poisoning, Fevers, Bowel and Menstrual problems, Insect and animal bites, etc. In fact it is used to help with problems affecting the whole of the systems in humans and animals alike.

According to reports from Noni Juice researchers, Noni is safe for pregnant and nursing mothers and can be taken with all medications and food supplements. It is non toxic and non addictive with no known side effects.

Noni Fruit Nutritional Information

More than 150 nutraceuticals have been identified in Noni Fruit
Some of them are: Anthraquinones, Calcium, Magnesium, Beta-Carotene, Linoleic acid, Potassium, All the B vitamins, Proline, Protein, Proxeroninease, Scopoletin, Beta-sitosterols, Sterols, Phenylalanine, Tyrosine, Ursolic acid, Antioxidants, Vitamin C, Proanthocyanadins, and Anthocyanadins.

Why is Noni good for so many conditions

Human bodies are biochemical reactors, examples of this are:
Fighting infections, digesting food, emotions, hair growth, thought process and many others.

The Human body is unique and the processes that take place are primary and supportive to the whole of our physical being. Any changes that take place to

these elements can have a direct effect on the physical and emotional aspects of our lives.

Noni helps to restore bodies internal organs to normal function

Scientific documentation of benefits for:

- Gastrointestinal system (diarrhoea, heart burn, nausea, colitis, ulcers.)
- Reproductive organs (menstrual problems, fibroids, yeast infections.)
- Liver and Pancreas (diabetes mellitus, pancreatitis.)
- Respiratory system (asthma, sinusitis, emphysema.)
- Endocrine system (thyroid and adrenal disease.)
- Cardiovascular system (heart disease, high blood pressure, stroke.)
- Nervous system (stress, depression, memory, energy, sex drive, etc.)
- Bones and Joints. (arthritis, osteo-arthritis, osteoporosis.)

Isolation of the compound from Noni called scopoletin by the University of Hawaii in 1993 attributes the new compound to lowering high blood pressure, reducing inflammation, killing fungi, bacteria and preventing tumour growth. Extracts of damnacanthal, one of the anthraquinone compounds, have been shown to kill the parasite responsible for malaria called Plasmodium Falciparum. Ref: The Medical Parasitology. The C.V. Maseby Company. London.

The Noni plant has brought hope and helpful benefits to people for the past 2000 years.

It is not completely understood how Noni works in the human body but scientific as well as anecdotal evidence from Noni Juice consumer testimonies say it works.

During the past 50 years scientists and researchers around the world have begun to understand better how the compounds in Noni Fruit work. The majority of the published research has come from the University of Hawaii School of Medicine. As well as laboratories in France and Japan.

Morinda Citrofolia is a remarkable life sustaining plant growing in the Tahitian Islands where the tropical climate and rich volcanic soil provide ideal growing conditions to produce high quality plants. Noni Juice known for thousands of years to have many natural healing properties is processed from this plant.

Merlin Natural Health Noni Juice contains:

- 99.6% Natural Organic Noni Juice
- 0.2% Natural Raspberry (for flavour)
- 0.2% Citric Acid (to preserve)

Many people find Noni juice without flavouring to be unpalatable. Our Noni Juice tastes very good considering it contains such a small amount of flavouring.

Supplement Facts:

Serving size 30 ml. (2 tablespoons)
Amount per 30 ml. serving

Energy, 14 kcal.
Fat, 0 gm.
Sodium, 0 gm.
Carbohydrates, 4 gm.

All supplements and natural juices should be stored in a cool, dark area.
Following these guidelines will help to preserve the integrity of the products.
Our juices are natural products, therefore the colour, taste and flavour may vary according to the harvesting seasons.

Noni Fruit Research

Thanks to years of Medical and Scientific research by renowned doctors we have statistical data from thousands of people suffering from a variety of ailments. Based on doctors findings the above is a guide on recommended rates of consumption. Keep in mind, however, that each person is unique and the best rule of thumb is for each person to find the amount that works best for them.

It takes about three months for the cells of the body to become saturated with Noni Juice. For best results Noni Juice should be consumed every day.

Some people notice immediate results such as increased energy, deeper sleep, pain relief and other symptoms. For others it may take several weeks. We do not offer an overnight solution, you must give the body time to heal itself. Some changes are so subtle it may take days or longer to observe.

We are not in a position to make any curative claims about Noni juice but scientific research confirms that Noni juice contains many important and indeed essential nutrients which allow the body to work at optimum levels. This is important as we are all exposed to many chemical compounds in our food, the air we breathe and products we use in our home. This exposure causes our cells to age at a rapid rate.

Noni juice is unique The more we drink, the better we feel!!!
Scientists conducting research on Noni juice have released a 600 page toxicology study that revealed, even when consumed in large amounts there are Zero toxic effects.

People need to be aware that cleansing reactions are to be expected in varying degrees and are perfectly normal. For example increased bowel movement simply means the body is cleansing encrusted matter out of the colon because Noni is 50% fibre.

In very rare cases, some people may develop a skin rash, this does not mean they are allergic to Noni juice, it means their bodies are full of toxins. There are only two ways for toxins to be eliminated: either pass through the colon or skin. If this occurs drink plenty of water and apply Noni as a poltice to the affected area, and if necessary cut back slightly on the amount consumed.

According to doctors Noni juice addresses the areas in the body that are the weakest or most ailing. When this happens a person may experience discomfort as the body deploys its natural defenses to heal the area.

Unfortunately, we are so accustomed to numbing or suppressing our bodies natural functions with medications that we panic when we feel something happening in our body, this is not necessarily cause for alarm but simply the bodies way of addressing the root of our suffering.

Merlin Natural Health Noni juice is 100% organic and the purest natural product you could put into your body.

The information presented within this site is not intended to diagnose illness or prescribe treatment. Always consult a medically qualified practitioner with knowledge of natural supplements before starting a course of supplements and before making any change to prescribed medication.
